

A G R E E M E N T

It is hereby understood that the Kansas City Monarchs Baseball Team and the Newark Eagles Baseball Team, agree to share equally the money they receive as their share of their respective baseball games, to be played on Sunday, September 9.

The Kansas City Monarchs will pool the money they receive as their share of the game in Detroit, Michigan, on September 9, less \$1,000.00 for Satchel Paige, and less whatever sum is paid to John Williams for promoting the game. The Newark Eagles will pool the money they make out of their game on the same date. The total amount, pooled by both teams, Kansas City Monarchs and Newark Eagles, shall be totaled, and then evenly divided.

In case rain prevents either team from playing, the amount made by the team that does play, shall be the total amount of the pool and shall be divided equally between the two teams. Of course, if the one game played shall be at Detroit, the same deductions as mentioned in paragraph #2 for Satchel Paige and John Williams, shall be made before the money is equally divided.
